Will classrooms of the future be teacherless?

In the news this week

The UK's first teacherless classroom, using AI (artificial intelligence) instead of human teachers, has opened. David Game College, a school in London, began its new course for twenty GCSE pupils in September. The pupils will learn using both AI platforms on their computers and VR (virtual reality) headsets.

Things to talk about at home ...

- > What do you imagine it would be like to learn without a teacher? What difficulties do you think might arise? What do you believe the benefits could be?
- > What qualities do you think make a good teacher? Ask others at home. Do you agree on all of the qualities?
